## Counting Chickens Before They're Hatched

brings disappointment as a rule, so don't reckon without the  
horse, "A thing of beauty is a joy forever," and that's what  
a Horse is. No matter how ugly he seems to some, he is a joy  
to others, for he helps to fill the dinner pail. Without the horse  
you cannot farm. Should your horse need medical or surgi-  
cal treatment call on **DR. HUDSON**. He has the largest  
veterinary practice in Adams County. Why? Because he has  
a thorough knowledge of his profession, practical experi-  
ence. It requires no argument to prove this. **It's True.**

## STATE APPROVES APPROPRIATION

Sundry Civil Bill Passes United  
States Senate and Preliminaries  
will at once Follow President's  
Signature to Measure.

The passage of the sundry civil bill  
which appropriates among many other  
items \$100,000 for the erection of the  
government building here leaves only  
the President's signature necessary to  
make the measure a law. This will  
be forthcoming in due time, it is said,  
and the usual formalities preceding  
the erection of the building will be  
taken up at once.

Bids will be advertised for, starting  
in May, for a period of six weeks,  
and it is understood that the contract  
will be awarded so as to allow work  
commence on or about July first of this  
year.

The building is to be of Pennsyl-  
vania granite, two stories in height  
and one of its distinctive features will  
be six massive pillars in front. The  
structure will house the post office on  
the first floor while the remainder of  
the building will be devoted to the  
use of the National Park Commission  
and the United States Internal Re-  
venue office. The third floor has been  
abandoned as unnecessary.

## A PLEASANT SURPRISE

On Friday evening George E. Slay-  
baugh, son of Mr. and Mrs. H. G.  
Slaybaugh, of Biglerville was given a  
most agreeable surprise when a num-  
ber of his associates called to spend a  
social evening with him. They  
brought with them an abundant sup-  
ply of good things to which they all  
did justice when the hour for refresh-  
ments came. Those present were,  
Misses Dora Walter, Nellie Rice, Ruth  
Reed, Margaret Honck, Grace Kessel-  
ring, Beulah Lawver, Lottie Spangler,  
Mary Bishop, Eva and Aletta Oyler,  
Messrs. George Slaybaugh, William  
Thomas, Francis Miller, Newlin Wal-  
ter and Wilmer Bream.

It will be remembered that Mr.  
Slaybaugh was injured in a scaffold  
break last September. We are glad to  
state that he is improving and that his  
full recovery is expected. He wishes  
to thank his many friends for their  
kindness shown to him in so many  
ways.

## HOUSE ON FIRE

Buchanan Valley, March 4—While  
William Clapsaddle's family were at  
dinner on Wednesday they observed  
smoke coming down through and out-  
side of their house and upon inspec-  
ting found the blaze coming through  
the roof at several places. Mr. Clap-  
saddle and his sons speedily put out  
the blaze, but it was necessary to put  
on a new roof. The fire was caused  
from the flue. The wind was extremely  
high on Wednesday and they were  
very fortunate that they saved the  
house. The barn is not far from the  
house and the fire would doubtless  
have been communicated to it had the  
blaze gained much headway.

## LOST TO HANOVER

The Gettysburg Athletic Club basket  
ball team composed of five young men  
of town lost to Hanover High School  
at Hanover Friday evening by the one  
sided score of 47 to 10. The local boys  
played a hard game but were handi-  
capped by the strange floor. A very  
low ceiling caused their calculations  
to go wrong and the boys from this  
place were never within striking dis-  
tance.

LOST: a headed belt Wednesday  
evening between 128 North Washing-  
ton street and Wizard Theatre. Re-  
ward at Times office.

THOS. J. WINEBRENNER has as  
fine a line of stoves on exhibition at  
his store on Baltimore street as is ever  
seen in a town as small as Gettysburg.

## THREATENED TO KILL HIS WIFE

I. Wesley Pottorff, of Tyrone Town-  
ship, Placed in the Adams County  
Jail on this Charge. Broke up  
Social Gathering.

I. Wesley Pottorff, of Tyrone town-  
ship, was placed in the Adams County  
jail on Friday evening charged by his  
wife with threatening to kill her. He  
will be given a hearing by Squire  
Straley, of New Oxford, who issued  
the warrant. The arrest was made by  
Constable Hensel, of New Oxford, who  
placed the man in Sheriff Fissel's care.

Pottorff is alleged to have made  
threats frequently that he would kill  
his wife and she finally became so  
much alarmed that she determined to  
have him placed where he could not  
harm her.

Her laying information was the  
outcome, it is said, of a fracas at the  
Pottorff home on Thursday evening. A  
number of friends had gathered to  
spend a social time which came to a  
sudden termination when Mr. Pot-  
torff appeared on the scene in a badly  
intoxicated condition and made things  
generally unpleasant for the guests so  
that they departed for their homes.

Mrs. Pottorff, it is stated, felt that  
she could bear conditions no longer  
and had the information laid which  
resulted in her husband's arrest.

boxes for patrons who wished it done.

He does excellent work. He also  
painted and lettered quite a number  
of boxes on route 1 in the vicinity of  
Mt. Carmel church. As this is re-  
quested by the Post Office Department  
patrons should have their boxes done  
up, or they can do it themselves. Mr.  
Chapman painted as many as 600 boxes  
from one office in Midlin County.

## DEATH OF JUDGE S. D. SCHMUCKER

Native and Distinguished Son of  
Gettysburg Dies in Baltimore  
after an Illness of Several Weeks.  
Brief Biographical Sketch.

Judge Samuel D. Schmucker, of the  
Maryland Court of Appeals, one of  
Gettysburg's most distinguished sons,  
died Friday night at the Union Pro-  
fessional Infirmary, Baltimore, where he  
was taken on Sunday, February 19, to  
undergo an operation for stomach  
trouble. The operation was performed  
by Dr. J. T. M. Finney and was suc-  
cessful. The judge improved imme-  
diately after the operation and con-  
tinued to do so until a few days ago,  
when he took a turn for the worse.

Judge Schmucker was born in Get-  
tysburg, February 26, 1844, and, as his  
name indicates, was of German des-  
cent. His father, Rev. Samuel S.  
Schmucker, was perhaps one of the  
ablest ministers in the Lutheran  
church. He was the founder of Penn-  
sylvania college and was at the head of  
the Lutheran Theological Seminary  
in this place. One of the grand uncles  
of Judge Schmucker served on the staff  
of General Washington. His mother  
was a Miss Steenberger, a member of  
the great Virginia family of that  
name, and she was related to James  
Madison and to the Custis family.

He was sent to Pennsylvania Col-  
lege, Gettysburg, from which he  
graduated with the class of 1863. He  
then took the two year course at the  
Law School of the University of New  
York City, graduating in 1865, after  
which he went to Baltimore and began  
the practice of his profession. In 1876  
he associated himself with Mr. George  
Whitelock, and the firm of Schmucker  
and Whitelock grew to be one of the  
leading law firms of the city. The  
partnership then formed continued to  
the time the senior member was  
elevated to the bench. It was in 1898  
that Governor Lowndes appointed Mr.  
Schmucker a judge of the Court of Ap-  
peals, to succeed William Shepard  
Bryan, Sr., father of the former At-  
torney General, Judge Bryan having  
reached the age limit.

In view of recent arguments con-  
cerning Lincoln's Gettysburg speech  
the account of its delivery as given by  
Judge Schmucker who heard Lincoln  
here is of special interest. He said:

"I very well remember the occasion,  
and my recollection is that the short  
speech delivered by the President made  
a profound impression among the peo-  
ple who could appreciate what was  
said. There was not, however, any  
general applause, but that was due to  
the fact that it was the dedication of  
a cemetery and we stood on a field  
where thousands of gallant soldiers  
had been slain.

"It was a solemn occasion and the  
dignity of the services would restrain  
one from being demonstrative. I re-  
member Lincoln very well as he stood  
that day, towering above all, for he  
was a very tall man, and while he  
spoke in a slow, deliberate manner he  
held in his hands a paper to which he  
now and then glanced.

"The President was the last of the  
speakers. First there was a minister  
from Washington, who made an excep-  
tionally long prayer, and then follow-  
ed Edward Everett, who also spoke at  
great length, delivering a peroration  
that was magnificent, but which has  
long since been forgotten.

"Mr. Lincoln did not speak more  
than a few minutes, but I am sure that  
those who were there, and especially  
those of a thinking turn of mind,  
grasped the significance of the address,  
for I heard many favorable comments  
upon it. Mr. MacVeigh has expressed  
the situation to a nicety in his ac-  
count, but while he seems to regard  
the lack of applause as exhibiting a  
lack of appreciation of the President's  
remarks, I feel that it was because of  
the solemnity of the occasion, literally  
a funeral service, and everyone felt  
that anything more than the subdued  
acknowledgment given would have  
been entirely out of place."

## \$3000 FROM FAIR

St. Mary's Church fair which closed  
this week in McSherrytown was the  
most successful held in years. The  
employees representing the various fac-  
tories of town, having charge of the  
booths, labored incessantly in a friend-  
ly spirit of rivalry, which resulted in  
the great success realized. The total  
net receipts from the fair amounted to  
\$2,966.07, and donations later to the  
amount of \$33.93, makes the grand  
total \$3,000.

# MAY NOT CALL EXTRA SESSION

**Taft Fears Additions by Democrats to Reciprocity Bill.**

**CANADA MAY DELAY ACTION**

**Dominion May Not Be Ready to Ratify Agreement Until Fall and Extra Session Would Be Unnecessary.**

Washington, March 4.—According to the statement of one of the Republican leaders in the senate there will be no extra session of congress because of the failure of congress to ratify the reciprocity agreement with Canada.

President Taft fears that the Sixty-second congress, dominated in the house by an effective Democratic majority, and in the senate by the progressive Republicans, who will hold the balance of power, will pass it without coupling with it legislation of proposed legislation.

This, coming up for consideration at an extra session, which every one believes would last practically throughout the intervening nine months before the fourth of next December, would plunge the whole country, as well as the Republican party, into a sea of troubles and postpone indefinitely that return to normal economic conditions, which must be the basis of national prosperity.

Finally, according to this senator, the president has received intimations from the authorities at Ottawa that the Canadian parliament may not be in a position to ratify on its part the recently negotiated agreement until about the time of the convening of the regular session of congress next winter.

In other words, the authority asserts, the president, convinced that only disaster, not only to the cause of reciprocity with Canada, but to the Republican party and the country as well, would follow such wrangling over the tariff as would be sure to result from the convening of the next congress before the Democrats had formulated their program and announced it to the country, has heeded the advice not only of the senate, but of business men all over the country from whom he has been hearing ever since an extra session began to impend, and has decided not to call one.

On this same authority it is asserted that in order that the considerations and circumstances which have led him to come to this conclusion may be thoroughly understood by the Canadian authorities, Mr. Taft will soon be in communication with a high Ottawa official, who, according to one report, is already on his way to Washington.

To him, it is said, the president will point out that he has made every effort in his power, in accordance with the pledges given to one another by the commissioners of the two countries who negotiated the agreement, to secure its speedy ratification, but that these efforts have failed through the refusal of the senate to act in accordance with his recommendations.

It is understood that no doubt exists at the White House that the administration position will be fully understood and appreciated by Canada. It is felt that there will not be any doubt in either country as to where the responsibility for the failure of the McCall bill at this time is to rest.

**BROWN DEFEATS WOLGAST**

**New York Boy Again Gets Decision Over Lightweight Champion.**

New York, March 4.—Because he forced the issue practically all the way and landed the greater number of clean punches, Knockout Brown defeated Al Wolgast, world's lightweight champion, in a fast ten round bout at the National Sporting club here.

But Wolgast showed so much stamina and was fighting so powerfully in the last part of the battle that the big crowd present realized that in a finish fight he might have turned the tide. At that Wolgast injured his right hand in one of the early rounds, which weakened his attack and no doubt was a serious handicap.

Brown came within an ace of winning decisively in the first round. He caught Wolgast on the jaw with a terrific left hand swing and made him reel into a clinch. Again in the second round Wolgast felt the force of K. O.'s wallop and staggered. Quick to realize that Brown was extremely dangerous, the champion covered up and defended himself until he had recovered from this smash.

**Rebels Capture a Town.**

Mexico City, March 4.—Information received here to the effect that an insurrection had broken out in the state of Guerrero and that a band of 300 rebels had captured the small Indian village of Lagula. A force of 150 troops was at once sent against them from Chilpancingo, and there was a battle, in which both sides lost many killed and wounded.

**Burglars Blow Bank Safe.**

Windfall, Ind., March 4.—Burglars entered the People's bank, blew off the outer doors of the safe and obtained about \$500 in silver and \$400 worth of postage stamps, left by Postmaster Sholly for safekeeping. They were unable to get into the inner vault, which contained about \$4500 in currency.

**EGGS** for hatching. From rose comb reds, \$4 per hundred. John D. VanDyke.

**Eat Ziegler's bread.**

**STORAGE EGGS IMPURE**

**Senate Committee That Investigated Food Reports.**

Washington, March 4.—Senator Heyburn, chairman of the committee on manufactures, reported to the senate the result of the investigations of what committee into the question of how long articles of food should be kept in cold storage without endangering the health of the consumer.

The investigation was intended to prevent the sale or transportation, interstate or foreign commerce, of articles of food held in cold storage for more than one year.

One of the recommendations is that the following articles held in cold storage for the periods indicated, instead of one year, shall be regarded as having been adulterated within the meaning of the pure food law: Beef, seven months; veal, four months; pork, four months; poultry, three months; game, three months; fish, three months; eggs, three months; butter, three months.

Much of the report is devoted to cold storage eggs. It says that the average quantity of such eggs in New York city each year is about 700,000 cases, and in Chicago about 1,000,000 cases.

"There is a strong showing," says the report, made in support of the proposition that the people always trade with the oldest stock, and that when new eggs come into the market they are withheld from the public in order that eggs already becoming deteriorated from storage may pass out."

**MINE STRIKER SHOT DEAD BY POLICE**

**Mob Attacks Officers and Are Met by Bullets.**

Pottsville, Pa., March 4.—In a pitched battle between seven Coal and Iron policemen, armed with pistols, on one side, and a mob of more than 200, mostly foreigners, on the other side, Dominick Marko, a member of the mob, of Raven Run, was shot and instantly killed.

Coal and Iron Officer Critz surrendered himself and is being held with the \$5000 bail, charged with the shooting.

Three other members of the mob were shot and were removed to the Miners' hospital at Fountain Springs. None, it is thought, will be fatal.

The riot was the result of a strike at the colliery at Raven Run when a large body of Italian workmen quit without presenting any reason for doing so.

When they returned to work they were refused employment. They congregated on an elevation near the railroad tracks between Raven Run and Girardville, and, armed with stones, kept the workmen from reporting at the colliery. Several who persisted were driven back amidst a shower of missiles.

The Coal and Iron police force in that section was mobilized and went down the railroad toward the gang of disturbers. They were met with a volley of stones and Critz was struck with a piece of coal. He drew his pistol and fired, and Marko, who had thrown one of the stones, dropped, shot through the head.

A pitched battle started, but was of short duration, as the mob was not prepared to meet the fire of the officers.

**HAMMOND TO START JUNE 1**

**Will Be Special Ambassador at Coronation of King George.**

Washington, March 4.—John Hays Hammond, who is to represent the United States as special ambassador at the coronation of King George V. of England, announced on leaving the White House that he would start for London about June 1.

President Taft has not yet appointed the military and naval aides who will attend the ambassador at the coronation.

**Altered School Report; Ran Away.**

New York, March 4.—Raymond McBride, fourteen years old, ran away from his home at 2743 Hamburger street, Philadelphia, because he feared that his father would discover that he had altered the report he brought from school. He took \$2.50 and came to New York. Hunger forced him to give himself up, and he was arraigned in the children's court. He told Justice Wyatt that he didn't want to go home, as his father would beat him.

## GUILTY OF FORGERY.

Broughton Brandenburg Goes to Jail For Two Years.

## JAIL FOR HUSTON

Brandenburg Sentenced to Prison Two to Four Years

New York, March 4.—A jury in a verdict of guilty on charges against Broughton Brandenburg, the magazine writer, and Jesse Swan, sentenced him to two years to four years and six months. He must not escape when the sentence was pronounced.

Brandenburg, who was charged with forging and cashing a check for \$50 last summer, has figured in court proceedings for the last two years, notably in connection with the case of alleged false pretenses of an article purporting to have been written by the late Grover Cleveland.

## AVIATOR FATALLY HURT BY 50-FOOT FALL

## Biplane Turns Turtle in Midair During Test Flight.

Bridgeport, Conn., March 4.—While tuning up a Curtiss biplane at Seaside park, preparatory to making an exhibition flight, Frank Paine, thirty years old, lost control of his machine and dropped fifty feet to the ground.

His machine was totally wrecked, and when Paine was extricated from the debris he was rushed to the hospital in a dying condition. He has internal injuries, one thigh was broken, and it is believed his skull was fractured.

He had flown about half a mile at an average height of fifty feet when something went wrong with the machine. It turned turtle in midair and dropped straight to the ground between two trees.

There was hardly a part of the biplane that wasn't torn or splintered, and beneath the heap of wreckage Paine was so tangled that it was fully five minutes before he could be gotten out.

No hope is held out for the aviator's recovery.

## PAROLE FOR BANKER

Looter of Milwaukee Bank Goes Free.

Leavenworth, Kan., March 4.—Frank G. Bigelow, who stole more than \$1,500,000 while president of the First National bank, of Milwaukee, was released from the government prison here today on a parole issued by President Taft.

He has been in the Leavenworth prison nearly six years. He was committed to the pen on June 11, 1905, to serve a ten year sentence. While in the pen Bigelow has maintained a perfect record for discipline. Each day it has been his duty to make the rounds of the pen and keep a record of the prisoners, the state of their health and obtain other detailed information for the census department.

## Aeroplane Kills Woman.

Madrid, March 4.—An aviator lost control of his machine and drove it into a crowd in the aerodrome, killing one woman and seriously injuring four other persons, including Colonel Villary Villate, a brother of former Minister of War General Villary. The aviator himself was uninjured.

## JAIL FOR HUSTON IS COURT DECREE

Superior Court Affirms Judgment Against Architect.

## HAS TEN DAYS TO APPEAL

Capitol Architect Faces Term in Prison and Fine of \$500 and Costs For Conspiracy to Defraud.

Williamsport, Pa., March 4.—The judgment of the Dauphin county court in the case of Joseph M. Huston, architect of the state capitol, who was convicted of conspiracy to defraud the state, was affirmed by the superior court.

The lower court sentenced Huston to from six months to two years in the eastern penitentiary and to pay a fine of \$500 and costs.

The decision means that Huston must serve the prison sentence and pay the fine imposed by the lower court on his conviction of the charge of defrauding the state in connection with the construction of that building unless it is overruled on higher appeal.

The opinion of the superior court was handed down by Judge Porter. In affirming the court below, Judge Porter, who wrote the decision, holds that the question of the meaning of the defendant's certificates to impart was submitted to the jury in such a manner that the appellant has no reasonable ground for complaint. Thus the first specification of error is overruled.

The second specification, that the court did not fairly review the evidence, is dismissed with the statement: "We are unable to pronounce it, after careful consideration, as adequate."

The third specification goes into the intention of the defendant in certifying the invoice, admitted to be fraudulent. The opinion holds that the court below clearly indicated the bearing of the question upon the issue, and there is no merit in the specification of error. It holds that the language of the court complained of in the fourth specification of error limited the effect of the evidence in question in a manner against which the appellant has no just ground of complaint.

The fifth to the tenth specifications relate to evidence, and are all dismissed. The eleventh, twelfth and thirteenth specifications relate to the verdict and are considered together.

The opinion then says: "The specifications of error are all dismissed, the judgment is affirmed and it is ordered that the defendant appear in the court below at such time as he may there be called, and that he be by said court committed until he has complied with that part of the sentence which had not been performed at the time this appeal was made a supersedeas."

Counsel for Huston have ten days to file a motion for an appeal to the supreme court. Meanwhile the capitol architect will remain at liberty under the bail bond of \$85,000 that was fixed by the superior court.

The Dauphin county court had fixed bail at \$60,000 pending the appeal to the higher tribunal, but it was subsequently raised through a special bail bond of \$25,000. In order to get the case into the supreme court the entire case will have to be reviewed.

## SUIT TO END ELECTRIC TRUST

Opening Gun Fired by Government in Cleveland.

## LAMP MONOPOLY CHARGED

Billion Dollar Combination Accused of Stifling Competition Through Unlawful Contracts—Control 97 Per Cent of Trade.

Cleveland, O., March 4.—Cleveland is to be the battleground for a fight by the United States government to break up what is alleged to be one of the most powerful and the most complete monopolies in the country.

The suit is brought under the Sherman anti-trust law.

Announcement of the fight was made with the filing of a suit in the United States circuit court by District Attorney William L. Day against the General Electric company, of New York; the National Electric Lamp company, which has its headquarters in Cleveland, and thirty-three other electric light and supply houses.

The petition alleges that the thirty-five companies are banded together in an unlawful conspiracy to restrain trade and build up a monopoly in incandescent electric lights; that they already control more than 97 per cent of the country's supply, and through unlawful contracts, combinations and conspiracies maintain unfairly high prices and throttle competition.

It is alleged that formation of the trust began soon after 1904, the year in which the United States patents on "carbon filament" incandescent lamps expired. By August, 1906, it is charged, the lamp output was in the hands of a specific combination. In 1907, it is charged, the trust branched out more extensively. The National Electric Lamp company, of Cleveland, was organized, the petition states, as a holding company to consolidate all the defendants, then members of the combination except the General Electric company and the Westinghouse company. Six competitors started up, but were soon forced into the combination.

The National Electric Lamp company was formed with a capital of \$650,000,000. By restraining trade and competition and forcing high prices, it is said, its profits were miraculous.

The "electrical trust" is rated as a billion dollar combination. Its chief companies are the General Electric company, capitalized at \$80,000,000; the Western Electric company, capitalized at \$25,000,000; the Westinghouse Electric and Manufacturing company, capitalized at \$60,000,000.

These various companies, it is said, are all controlled by one body, although they are ostensibly distinct and separate organizations. Among them they manufacture and market incandescent electric lights, trolley motors, boat motors, automobile motors, heating apparatus, copper wiring and every commodity used in connection with electric power.

## CHINESE RIOT FOR FOOD

Twenty-one Persons Trampled to Death in Hunger Fight.

Hankow, China, March 4.—Twenty-one persons were trampled to death at Sha Yang, Hubei province, when a horde of starving Chinese fought for the food which missionaries were attempting to distribute. A great many others were injured.

The work of relief is attended with some peril to those who have taken supplies into the famine districts, as the natives in many instances are mad with deprivations.

A considerable amount of foodstuff was received by the missionaries, who immediately planned a systematic distribution. Their work was hardly begun when thousands of desperate men, women and children who had learned that there was a chance of their hunger being half satisfied swooped down upon the supply depot.

An uncontrollable riot followed. Each fought for himself, and the weaker went down and were ruthlessly trampled. The fighting continued as long as there appeared to be anything to fight for. The missionaries were powerless.

## Own Eggs Save Hen's Life.

Kenilworth, N. J., March 4.—David Stein, of this place, missed a Plymouth Rock hen a month ago and found her under an overturned water pail still alive. She weighed over six pounds when lost and a pound and a half when found. Bits of egg shell in the bucket prison indicate that the hen lived on her own eggs.

## Frog Presages Spring.

Reading, Pa., March 4.—While George Blankenbiller, of Lower Brecknock, was getting water at a spring on his farm he saw a frog on the bank. This is unusual for this time of the year, and it indicates that an early spring will follow and that winter is practically over.

## Massacre Jews in Kieff.

Many Women Now Doing Without False  
Hair.

Rare and false hair paraphernalia for  
the upbuilding of woman's thinned out  
hair may be necessary, but the sight is  
far from pleasing.

With care nature can supply to most  
women all the hair necessary for attrac-  
tive dressing.

Many thousands of women, refined  
and educated, have learned that it is not  
hard to have, and to keep an abundance  
of lustrous hair, if Parisian Sage the hair  
grower is used daily.

Since its introduction into America,  
Parisian Sage has become a prime favorite  
with women who desire luxuriant  
hair that will not fall out or turn gray.  
Used daily it will keep the scalp immacu-  
lately clean; will stop itching and falling  
hair, and remove every particle of dandruff.

It causes the hair to grow because it  
is able to penetrate into the roots, where it  
besides nourishing the hair, destroys the  
dandruff germs. The People's Drug Store  
and druggists everywhere guarantee Parisian  
Sage to do exactly as advertised, or  
money back. A large bottle only costs 50  
cents, and it is a most invigorating and  
refreshing hair dressing. The girl with  
the Auburn hair is on every package.
